

## ST. GREGORIOS COLLEGE KOTTARAKARA

### BEST PRACTICE I: "PATHEYAM"- FOOD DISTRIBUTION DRIVE FOR THE UNDERPRIVILEGED

#### **Objectives**

- o Make students aware of the seamy realities of society
- o Inculcate empathy for the destitute and the underprivileged
- o Instill respect for senior citizens
- Encourage students to live out the spirit of service enshrined in the motto
- Impress upon students the importance of collaborative work in mitigating social problems
- o Develop the organizational and leadership capabilities of students
- o Strengthen the bond and rapport between the college and the larger community in which it is located.

#### **Context:**

Coming from different strata of society, the students of our college are blessed with a great commitment to society. They were inspired by the earlier NSS initiative of providing food to the underprivileged. The student's union took up the initiative, with the support of the college authorities. The purpose of the initiative was to inculcate fellow feeling, the need to share one's resources with others, and to become socially committed towards building a less divisive and more egalitarian society.

#### **Practice:**

Originally begun as an NSS initiative in 2012-13, the student's union took up Patheyam as a regular practice from 2014-15 onwards. Around 10 to 15 volunteers are entrusted with the task of collecting food packets from students on Thursdays. The students are reminded to bring an extra lunch packet of home cooked meals packed in eco-friendly material. Around five packets are collected from each class and a minimum of 150 lunches are received every week. The volunteers deliver the packets to Kottarakara Taluk Hospital and to Ashraya, a renowned NGO which houses a wide range of underprivileged individuals, including senior citizens and very young children. The student team then

distributes the food packets to the inmates of the Home and the hospitals and if possible, the team spends quality time with the residents.

#### **Evidence of success:**

The food distribution drive has been successful in inculcating a philanthropic sense of duty and responsibility towards fellow beings. Ashraya has entered into an agreement with the college in relation to this practice, and a certificate of agreement has been issued in this regard. The number of lunches received and related documentation which is regularly entered in registers and the photographic evidence of the practice go to prove that the Patheyam drive has been successful so far despite some drawbacks. It has been extremely helpful to the charitable organization and beneficial and rewarding for the students who have volunteered in this scheme.

#### **Problems:**

The biggest problem with the practice is the difficulty to maintain regularity of distribution. Firstly, the number of lunches collected every Friday depends on the willingness of students. On some weeks and in some batches, there is more engagement and enthusiasm on the part of students, but this support cannot be regularly maintained. Secondly, around ten Fridays are lost every year owing to vacation, holidays, exams and other contingencies. Therefore, the frequency of lunch distribution is affected.

#### Patheyam
