

DEPARTMENT OF PHYSICS, ST GREGORIOS COLLEGE, KOTTARAKARA

ORIENTATION PROGRAMME REPORT 2018-2020

The orientation programme is generally used to describe the whole process whereby the incumbents adjust to the first year students to new roles and environment in our department. In other words, it is a well-planned event to educate the new entrants about the environment in a physics department and connect them with the people in it. Student orientation Programme engages with the new students as soon as they come into the Institution; before regular classes start. At the start of the induction, the incumbents learn about the institutional processes, practices, culture and values, and their mentor groups are formed.

The tutor just not only delivered lectures but it was an interactive session where learners were able to co-relate themselves with the ideas presented and have a clear picture of self as well as of the vitally important soft skills for the rest of their lives. The sessions were so interesting that the learners enthusiastically participated in the tasks assigned and displayed their enthusiasm and motivation to be a part of creating healthy society. The interaction was quite comprehensive in sense that it covered all the major aspects related to the students' life. The session significantly emphasized work ethics and time management, and stress management. The learners felt motivated to get enriched in the soft skills in professional and individual life.
