

ADD ON - DEPT. OF PHYSICS

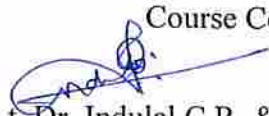

Report of the "Certificate course on Rain Water Harvesting and Management"

During the year 2019-2020, a certificate course was conducted by the Department of Physics, St.Gregorios College, Kottarakara under the co-coordinator ship of Lt.Dr.Indulal C.R. and Mrs.Rejani V Koshy. The total number of student's enrolled for the course was limited to 31. Total periods (1Hour each) conducted for the programme were limited to 27.

Students from various Departments were selected for the course after testing their knowledge and interest levels on the subject. The course content include water resource, Sources of fresh water, Ground water irrigation, Water pollution, Ground water pollutions and its sources, Treatment of Pollution, Rain water Harvesting and its needs, Water treatment measures, Water harvesting techniques, Rooftop rain water harvesting followed by some practical sessions.

Practical sessions included Rooftop water harvesting from a household, Rooftop water harvesting from a group of houses, Storage capacity of water storage structures (Rectangular and cylindrical), Rainfall measurement, Ground water level measurement etc. The course content provided a concrete idea regarding the basics of rain water harvesting and its needs in the modern era. The certificate issued to the deserving students points their interest levels in the related subject.
